Introduction

01 Flexible Control

• Portable and Lightweight

- Easy to transport and store
- Weight is less than 3kg
- Suitable for various scenarios

• Quiet Operation

- Operating noise is less than 70 decibels
- Reduces stress on animals and veterinarians

• Adjustable Functions

Suction Ctrl

Suction Ctrl

Water/Air Ctrl

Water/Air Ctrl

- Flow rate can be adjusted in real-time
- Precise suction/flushing

02 Superior Performance

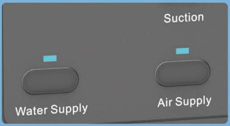
• Waste and Clean Water Separation

Waste water bottle

clean water bottle

- Waste water bottle and clean water bottle are separated
- Cleaner water usage

• Integration of Suction and Flushing



Suction
Water Supply
Air Supply

- Water supply, suction, and aspiration are integrated
- Functional integration
- Ensures cleanliness of the surgical area

·Hands-on demonstration

Technical Parameters

Product name	Irrigation and Suction Pump	Product model	JTA-300
Product Dimensions	241mm×217mm×93mm	Voltage	100-240V~ 50/60HZ
Input power	16VA	Flush flow rate	15ml/s

Suction flow rate	Weight
30ml/s	3.0kg

Application

Suction

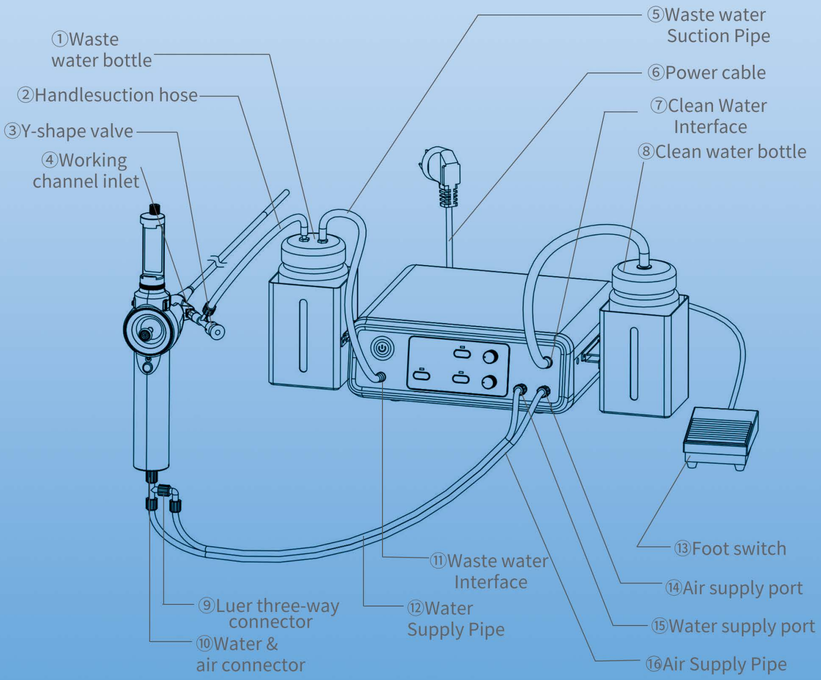
JeetVet JTA-300 Veterinary Irrigation and Suction Pump is engineered to deliver reliable and efficient aspiration/irrigation/suction performance in veterinary settings. Adjustable aspiration/irrigation/suction levels and clear indicators ensure precise control, catering to various needs The veterinary pump features a powerful motor that delivers superior water & air supply, suction power and ensures a clear operative field and aids in faster recovery for the animal patients.

Applications:

- ·Veterinary Gastroscope
  Water/air supply and suction
- ·Veterinary Flexible Otoscope
  Water/air supply and suction

Product Usage Guide

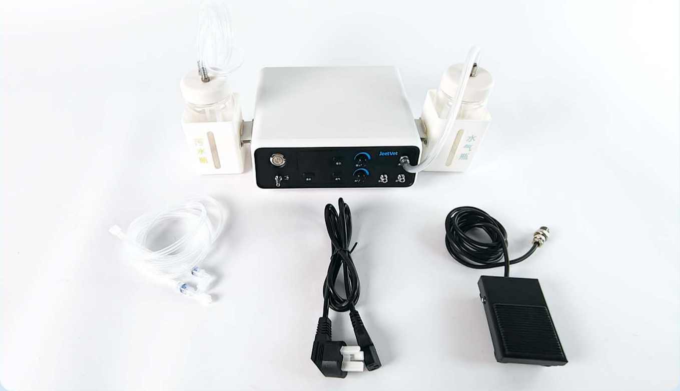
Product button description



①Waste water bottle
②Handlesuction hose
③Y-shape valve
④Working channel inlet
⑤Waste water Suction Pipe
⑥Power cable
⑦Clean Water Interface
⑧Clean water bottle
⑨Luer three-way connector
⑩Water & air connector
⑪Waste water Interface
⑫Water Supply Pipe
⑬Foot switch
⑭Air supply port
⑮Water supply port
⑯Air Supply Pipe

- **SIMPLE**
- **CONVENIENT**
- **SMART**

Product packaging accessories



Product packaging accessories include:

- ·Instructions for use
- ·Energy Platform
- ·Waste water bottle
- ·Clean water bottle
- · Water & Air tubing
- · Luer three-way connector
- · Foot switch
- · Power cable

After-sales guarantee

We are fully confident in the quality of our products and committed to providing you with a seamless user experience. Should you encounter any issues, our dedicated customer service team is ready to assist you promptly and effectively.

Warranty& Support: Comprehensive warranty and support.

Customer service: Get technical support and training from the manufacturer.

Our goal is to ensure your complete satisfaction. You can rely on our experienced team for fast responses, expert guidance, and ongoing support throughout your use of our products.
